FINANCIAL SECRETARIAT U.O.No.Fi. 1420 12. DEC 19

It is ascertained from the University section that (1) in the Medical college, the honorarium given for giving lectures for a period of six months on Tuberculosis is Rs 200/- and (2) in the Medical School for 9 months the honorarium is Rs 100/-

In the present case the period during which lectures have to be given is not known. But the number of lectures is limited to six which may not take a long period and the strength of the school also is less. The honorarium proposed may perhaps be reduced to Rs 50/- taking the above facts into consideration.

Financial Secretary desires to know what honorarium is paid for special lectures in the Medical School and in the Medical college. This may be kindly furnished.

GENERAL SECRETARY.
30 NOV. 1936

SIR,

Practical training to the students of the Ayurvedic and Unani College, Mysore, in hospitals of Medical Department.

I have the honor to state that the Committee of the Ayurvedic and Unani College, Mysore, proposed that the students of the 3rd and 4th Year of the College might be permitted to receive practical instruction in the Princess Krishnajammanni's Sanatorium, Mysore, the Vaccine Institute, Bangalore, and the Eye Department of the Krishnarajendra Hospital, Mysore, and that a sum of Rs.50 per annum for each of the above institutions might be granted towards honorarium of the doctors undertaking this work, the cost being met from the lumpsum grant of Rs.9,000 for College Necessaries provided for in the budget.

2. The Senior Surgeon, who was consulted about the proposal, stated that if a series of 6 lectures with demonstration of cases were arranged, the students might be instructed in the methods for detecting early cases of Tuberculosis, the Medical Officer on the Sanatorium being paid a suitable allowance, that students might be sent to the Vaccine Institute, Bangalore, in consultation with the Director of Health, and as regards the Eye Department, the permanent Medical Officer of Krishnarajendra Hospital was not in favour of allowing Ayurvedic or Unani students to work in any section of the Hospital.

3. The Medical Officer of the Princess Krishnajammanni Sanatorium has stated that it will be convenient for him to give a course of lectures to the students.

4. The Director of Health has stated that if the students have the general education with the knowledge in Kannada, they can take the course of 3 months for getting training in vaccination.

5. With regard to the above 3 proposals of the College Committee, I think that the question of imparting training to the Ayurvedic and Unani students in the Eye Department and in the Vaccine Institute is not necessary and may be dropped. The suggestion of the Medical Officer of the Princess Krishnajarmanni Sanatorium to give a course of lectures, seem to be beneficial to the students to detect cases of Tuberculosis in its early stages. The honorarium of Rs.50 to the Medical Officer of the Sanatorium proposed by the College Committee seems to be inadequate. I am of opinion that a sum of Rs.100 may be paid to the Medical Officer for this course of lectures proposed to be delivered by him.

6. I request that sanction of Government may kindly be obtained to the above proposal, the charge being met as suggested by the College Committee.

7. Communications received from the College Committee, the Senior Surgeon and the Medical Officer of the Princess Krishnajarmanni Sanatorium, are submitted herewith for reference and kind return.

I have the honor to be,

Sir,

Your most obedient servant,

Muzrai Commissioner.
